PLATEAU QUADRANT

#### **DIMENSIONS**

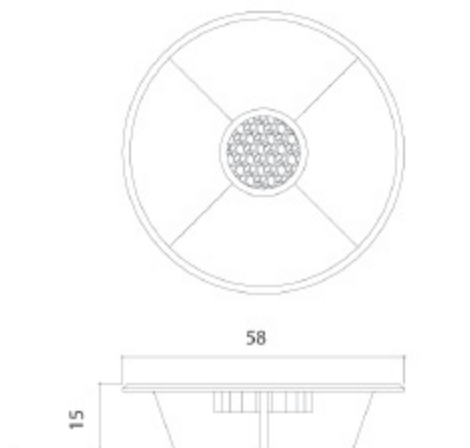

58"l x 58"w x 15"h

#### **MATERIALS**

1.5" thick slabs of certified renewable cellulose fiber and resin, black powder coated aluminium basin

#### **DESCRIPTION**

The strong geometry of Quadrant is ideal as the focal point in an outdoor setting. The scored, cross axial lines can be used to orient the axis of the garden. The center basin can be filled with plants, stones, or water to create a point of focus or a natural screen. Designed by DESU Design as part of the Plateau line.
